The bedroom is a sanctuary. It is a place of escape, rest, and renewal. It is one of the most intimate spaces of your home. We will aim to bring every element of your bedroom to come together to reflect your personality and create the perfect relaxing environment.

Bathroom

You deserve the best

We expect our bathrooms to provide full relaxation and to offer a place to unwind and enjoy some peace and tranquility. Our main challenge in bathroom design is to meet your needs within the best materials, confines of space and provide a great looking addition to your home.

Wellness zone

Ideal place for meditation

The entire 'Home Spa' is visually interlinked with the garden, with flat area which was made larger, thanks to additional greenery, while preserving all original spruces.
